

Planning Phase Checklist

PROJECT DEVELOPMENT PHASE: PLANNING

Success isn't something that just happens, it has to be planned. Before successfully designing your HMI / SCADA project you need to plan it out. Here is a checklist to help you through the planning phase of HMI / SCADA project development.

1. Define Project

<input type="checkbox"/> a. Answer Questions to Define Project	due by:	assigned to:
<input type="checkbox"/> Function	due by:	assigned to:
<input type="checkbox"/> Usage	due by:	assigned to:
<input type="checkbox"/> Deadline	due by:	assigned to:
<input type="checkbox"/> Hardware	due by:	assigned to:
<input type="checkbox"/> Software	due by:	assigned to:
<input type="checkbox"/> Security	due by:	assigned to:

2. Project Architecture

<input type="checkbox"/> a. Inventory Functions	due by:	assigned to:
<input type="checkbox"/> b. Inventory Screens	due by:	assigned to:
<input type="checkbox"/> c. Identify Data Points	due by:	assigned to:
<input type="checkbox"/> d. Define Database Structure	due by:	assigned to:

3. Plan of Action

<input type="checkbox"/> a. Create Ordered Task List	due by:	assigned to:
<input type="checkbox"/> b. Match Tasks with Assets	due by:	assigned to:
<input type="checkbox"/> c. Put Tasks on a Timeline	due by:	assigned to:
